RECEIVED

MAY 27 1986

U.S. EPA, REGION V
WASTE MANAGEMENT DIVISION
HAZARDOUS WASTE ENFORCEMENT BRANCH

Mr. Joe DeVuono
U.S. EPA - Region 5
Waste Management Division
CERCLA Enforcement Section
230 South Dearborn Street 5HE-12
Chicago, IL 60604

Dear Mr. DeVuono:

This letter is in addition to our March 19, 1986 correspondence on the above site. Kewanee Industries, Inc. (Kewanee) has located documents related to its former Onyx Chemical Blue Island, Illinois Plant's use of American Chemical Services (ACS).

Attached are records from the Blue Island facility indicating three shipments (total 11,520 gallons) of waste paraformaldehyde were made to ACS on April 22, 1982. Please note that these records also indicate that this material was destroyed as part of a "secondary refuel program" and that it was not landfilled. No records from the 1955 to 1975 period specified in Mr. Constantelos' February 21, 1986 letter have been located.

Chevron Chemical is acting on behalf of Kewanee and its various divisions and subsidiaries in this matter. At this time we have no evidence to believe Kewanee should be involved at this site or that Kewanee contributed to any problems at the site. Should new information become available to show Kewanee did contribute to site problems, we would be willing to consider participation provided an equitable agreement is worked out with other responsible parties.

For further question regarding this matter, please contact Mr. Dan Hemker at (415) 894-2950.

Very truly yours,

DLH:sm

Dear Mr. DeVuono:

This is in response to Mr. Constantelos' letter dated February 21, 1986 requesting Onyx Chemical's participation in the investigation of the above site. Chevron Chemical Company is acting on behalf of Kewanee Industries, Inc. (Kewanee) and its various divisions and subsidiaries with respect to this site. Onyx Chemical is a former division of Kewanee. For information purposes, Kewanee is now a subsidiary of Chevron U.S.A., Inc.

At present, the nature of the Onyx Chemical involvement, if any, at American Chemical Service is unknown. However, Kewanee would be willing to participate in an investigation provided that it is shown that wastes from Onyx Chemical went to the site. Our involvement would be contingent upon a Committee of PRP's being formed and an equitable funding agreement negotiated.

Kewanee is investigating the potential involvement of the former Onyx Chemical facility and will provide this information to EPA. In addition, we will contact the Indiana Environmental Management Board regarding information in their files on Onyx Chemical's use of the site. We will also discuss any potential participation with the Steering Committee should one be established.

For further inquiries regarding this matter, please direct correspondence to:

Mr. Dan L. Hemker
Chevron Chemical Company
595 Market Street, Room 1654
San Francisco, CA 94105

Should you wish to discuss this, Mr. Hemker can be reached at (415) 894-2950.

Very truly yours,

JN. Stambolis
